

THE LEGENDARY BLACK WATER RAFTING COMPANY

The Legendary Black Water Rafting Co. has been guiding adventurous people through the magical Ruakuri Cave since 1987. The Legendary Black Water Rafting Co. is New Zealand's first and still the best, black water adventure tour operator. We're also the only adventure tour company that takes you through the incomparable Ruakuri Cave.

Cave tubing, or black water rafting, involves the use of an inflated rubber inner tube - the kind you would normally find in a car or truck tyre. It acts as a flotation device to take you down the subterranean rivers that flow through the ancient cave systems of Ruakuri.

There are two levels of Black Water Rafting - the Black Labyrinth (up to 12 people per trip) and the Black Abyss (up to 8 people per trip).
